

Armaflex®

- Extremely low thermal conductivity $\lambda 0^{\circ}\text{C} = 0.033 \text{ W/m Deg K}$, for higher energy saving
- Enhanced resistance to Water Vapour ingress $\mu = 10,000$ for increased long term efficiency.
- Made with micro ban antimicrobial product protection for added defence against mold on the insulation.
- Extremely fire safe, since it meets Class O as per BS Standards
- Light weight and flexible enabling with low maintenance, resulting in time and cost saving.
- Excellent resistance to ozone, oil and chemicals
